

MOHAMMED ALMUAFI

ELECTRONICS AND COMMUNICATION ENGINEER

+966533282465

mmalmuafi@gmail.com

AlNaseem, Jeddah, Saudi Arabia

About Me

A highly motivated, freshly graduated electronics and communication engineering with a solid foundation in telecommunication systems, RF design, and digital communication. Gained practical experience through academic projects and internships, with strong problem-solving and troubleshooting skills. Eager to contribute and grow within a forward-thinking organization in Saudi Arabia.

Education

2020-2024

Um AlQura University

Bachelor Degree

Final Year Project: GPS-Based Tracking System for Individuals with Intellectual Disabilities

Experience and training courses

- License from the Saudi Authority for Engineers (SCE)
- Internship Program conducted Saudi Aramco | Jun 23, 2024 - Aug 15, 2024
- Management of Communication Systems at 911 Center | July 3, 2023 - August 17, 2023
- Industrial Fire Safety Awareness (IFSA)
- Series Circuits (Electrical Theory for Troubleshooters)
- Analog Multimeters (Multimeters)
- Electrical Circuits and Supplies (Electrical Safety)
- Building Electrical Diagrams
- Electrical Schematic Symbols Input Devices
- Office Safety Awareness
- General Protective Equipment
- Working Safely with Electrical Power Systems
- New Employee Safety Orientation
- Flame Resistant Clothing -FRC (LPD)
- Three-Phase AC Circuits
- Advances AC Motor Principles (AC\DC Motor Theory)
- Wiring Diagrams (Electrical Print Reading)
- Electrical Personal Protective Equipment
- Electrical Shock (Electrical Safety)
- Successful Leader

Skills

- Problem-Solving & Troubleshooting
- Team Collaboration
- Project Management
- Critical Thinking
- Time Management
- Attention to Detail
- Effective Communication
