Material | Material
Properties | Renewable
Energy | Automatic
control system | SMS

LANGUAGE

Arabic
English

EDUCATION HISTORY

2019 - 2024

Bachelor of Mechanical Engineering

Umm Al-Qura University

TRAINING EXPERIENCE

Umm Al-Qura University

Remote training

Mecca | 2023/Jul-Sep

I learned a lot of things about Innovation and Entrepreneurship. I have gained and improved my skills like working with coding devices. This experience was very beneficial to me both personally and on the career and knowledge level.

The activities done during the program can be mainly described under four categories:

- Lecture Sessions - General courses - Mechanical Engineering courses - Other Engineering courses.

King Abdullah Air Base

Maintenance Department

Jeddah | 2022/Jun-Aug

The training aimed to introduce the work of technicians on the aircraft, explain the parts of the aircraft, the method of transmitting signals, and the safety and security protocols ready for each aircraft.

Among the departments in which we trained:

- Electricity and Antennas Department - Fluids Department
- Repairs Department - Structures and rust control department - Engines Department.
