## SUMMARY

I seek to obtain a job opportunity in an environment that enables me to develop my professional skills, gain practical experience, and contribute effectively to achieving the organization's goals—whether in my field as a construction supervisor, construction technician, or architectural draftsman/AutoCAD specialist.

I aim to utilize my experience in supervising construction works and executing engineering drawings with accuracy and professionalism, contributing to the success of engineering projects or in any field required by your organization. I am confident in my ability to adapt quickly, work efficiently, and achieve the objectives of the position I apply for.

## WORK EXPERIENCE

### Rawafid Engineering Consultancy

Technical Supervisor

Duration: 2 years

- I have practical experience in the construction field, with a focus on supporting the execution of work in accordance with job requirements and approved specifications.
- Contributing to the review of technical specifications and monitoring compliance with them in order to support the quality of on-site execution.
- I collaborate effectively with the team to contribute to the execution of construction works in an organized and well-coordinated manner.
- I adhere to work instructions and occupational safety regulations in the construction environment, with an awareness of potential risks during execution.

## EDUCATION
