👤 Profile

I have over nine 9 years of experience as an Executive Architectural Engineer, specializing in fit-out execution, finishing works, and technical site operations within the construction sector. Throughout my career, I have contributed to the successful delivery of major architectural and interior projects in Egypt and Saudi Arabia, working alongside leading developers, consultants, and investors.

This experience has enabled me to develop strong technical and managerial expertise in supervising, coordinating, and executing high-quality finishing works, as well as dealing with a wide range of modern architectural materials, systems, and construction technologies
