[Yasir Alghamdi](#)

Civil Engineer with a Bachelor's Degree in Civil Engineering, proficient in structural analysis and design principles, and skilled in using industry-standard software such as AutoCAD and SAP2000. Seeking to join a leading organization where I can apply my skills and contribute to innovative projects, with a focus on delivering effective engineering solutions and advancing in the field of civil engineering. Aim to enhance engineering performance and innovation within a supportive work environment that fosters professional development.

EDUCATION

Bachelor's Degree in Civil Engineering

2023

Al-Baha University

COURSES

- Cyber Security Course, Hadaf.
 - Information Security Course, Hadaf.
 - Basics of Computers Course, Hadaf.
 - Excel Spreadsheet Program Course, Hadaf.
-

PROFESSIONAL GOALS

- Design innovative engineering solutions.
 - Enhance systems with advanced technologies.
 - Deliver high-quality engineering projects.
 - Collaborate effectively with diverse teams.
 - Stay updated with engineering trends.
 - Integrate sustainability in engineering designs.
 - Achieve a balance between work and personal life.
-

SKILLS

- Communication Skills.
 - Leadership and Guidance.
 - Risk Management.
 - Budgeting and Cost Control.
 - Problem-Solving.
 - Attention to Detail.
 - Data Analysis.
 - Team Collaboration.
 - Strategic Thinking.
 - Construction Management.
 - Geotechnical Engineering.
 - Hydraulic Engineering.
 - Proficiency in design software.
 - Proficiency in computer programs.
-

LANGUAGES

- Arabic.
- English.
