### Personal Information:

- Saudi Council Engineer Membership:** 1101035
- Driving license:** Active
- Iqama:** Transferable
- Notice Period:** Immediately

### Profile

**Planning & Project Control Engineer with 4 years of experience** in managing project schedules and optimizing performance. Expertise includes preparing baseline schedules, efficiently identifying trends and deviations using performance metrics to highlight areas for improvement, and developing recovery schedules. Skilled in managing changes and evaluating their impact on scope, schedule, and budget, while ensuring seamless integration. Experienced in handling claims, including Extension of Time (EOT) and change claims, and developing revised schedules. Adept at collaborating with stakeholders and capturing lessons learned and best practices to enhance future project planning.

### Education & Certification

- B.Sc. in Mechanical Power Engineering | Alexandria University** | Sep 2016 – June 2021
- PMP Professional Training Program Certificate.**

### Work Experience

- Site Engineer | Petromaint Co | Egypt** | July 2022 – August 2024

Project: Construction of a 6000 m3 Sewage treatment plant.

### Achievements

- Cost Control:** Achieved a 30% cost reduction by replacing pipe insulation coating with a reliable alternative.
- Time Control:** Achieved a 10% time reduction through efficient optimizing of resource utilization and allocation.
- Quality Control:** Developed WPS for stainless and carbon steel joints.
- Change management:** Effectively evaluated change requests and their potential impact on schedule, scope, and budget, then integrated them into the project plan.
- Risk management:** Efficiently identified risks, assessed their impacts, and developed appropriate response plans.
- Financial Management:** Reviewed contractor invoices with attention to detail, conducted financial forecasting, and performed cash flow analysis.
