📄 PROFILE

- I'm strongly motivated to make a change, and willing to be a major innovator. In most of my group works, I performed as a very flexible yet strict team leader, which was supported by my excellent communication skills. Also, I am an effective team member. Through different activities I showed an organized and proficient problem solving capabilities, even under high work load.

🎓 EDUCATION

Bachelor's, Civil Engineering Department, 2012
Higher Technological Institute. Tenth of Ramadan
2006 – 2012 | Cairo, Egypt

A civil engineer is responsible for designing, constructing, and maintaining physical structures and infrastructure such as bridges, buildings, roads, and dams. This involves the use of mathematics, science, and engineering principles. Civil engineers also work on projects related to the environment, energy, transportation, and water systems. They must also be able to manage projects, budgets, and teams of people.

- 4-Carry out and complete lift plans
- 5-Conduct quality control inspections to ensure the integrity of piling foundations

🔑 INTERESTS

Sports

Team sports such as football, basketball, rugby, etc. show that you're able to work well in a team. If you're a captain of a team, it's a great opportunity to highlight your leadership skills.

Travel

Travel indicates worldly awareness, cultural sensitivity, adaptability, and organization. Bear in mind that employers don't want to read about how you developed your interpersonal skills meeting people in bars! Be sure to highlight any work experience or languages acquired.
