- 7) Enscape
- 8) Adobe Photoshop
- 9) Microsoft Office
- 10) BIM Coordination
- 11) Structural & MEP Integration
- 12) Saudi Building Code
- 13) Balady System

### Professional Profile:

I am Senior Architect Engineer with over 11 years of experience in construction supervision, execution, and design coordination within the construction sector. I have worked as both a contractor and a consultant on diverse projects, including hotels, residential compounds, and commercial buildings, ensuring that contractors comply with contract terms and quality standards. I possess strong skills in reading and analysing engineering drawings and verifying that materials conform to approved specifications. I am proficient in AutoCAD and Revit, as well as rendering programs such as Lumion and Enscape. Additionally, I have extensive experience in obtaining permits from the municipalities of Jeddah and Riyadh.

### EXPERIENCE:

**March 2019 – Present**

**HAK Arabia Engineering**

**Jeddah, Saudi Arabia**

**Technical Office / Site Engineer**

#### Projects:

- AlMohisen Regent Hotel– 300 million SAR
- Motoon Residential Complex – 40 million SAR
- Palm Walk Al Rajhi – 33 million SAR
- Al Yahya Commercial Canter – 15 million SAR

#### Responsibilities: Site Engineer

- Supervision construction projects (e.g., hotels, residential compounds) to ensure contractors adhere to contract terms, quality standards, and project timelines.
- Verify compliance with approved specifications for materials and workmanship.
- Supervise fit out works, façade works, and landscape.
- Review and approve shop drawings and material submittals to ensure alignment with project requirements.
- Skilled in managing multidisciplinary teams, contractors, and stakeholders to improve execution quality.
- Advanced proficiency in AutoCAD and Revit for design and drawing analysis.

# HOSSAM HASSAN OMAR
