

Profile Summary

Results-driven Architect with 5+ years of experience in architectural design, BIM modeling, and site supervision for residential and commercial projects. Proficient in Revit, AutoCAD, Sketch Up, and 3D visualization, ensuring high-quality design execution. Skilled in space planning, project coordination, and structural & MEP integration to optimize functionality and aesthetics. Strong expertise in budgeting, compliance, and stakeholder communication for seamless project delivery. Passionate about creating innovative, efficient, and sustainable architectural solutions.

Professional Skills

- Revit, AutoCAD, Sketch Up
 - Construction Drawings
 - Shop Drawings Preparation
 - Material Research & Selection
 - Compliance & Building Codes
 - Concept Development
- BIM Modeling
 - Interior Design
 - High-Rise Building Design
 - Residential & Commercial Architecture
 - Façade & Elevation Design
 - Landscape Design
- Site Supervision
 - Project Coordination
 - Quality Assurance & Control
 - Client Consultation & Presentation
 - Team Mentorship & Training
 - Critical Thinking & Problem-Solving

Education

Bachelor of Architecture & Environmental Design

Sir Syed University of Engineering & Technology | **CGPA:** 3.3 / 4.0

2016 - 2020

Work Experience

Technical Architect Engineer

LINES (Balubaid Group) (Jeddah, Saudi Arabia)

August 2025 – Till Date

Lines company specializes in construction projects, fit out works and in designing projects. It's a subsidiary company of Balubaid Group.

- **Projects Role & Coordination** : Working as a Technical Architect Engineer on different projects ,specially in the project of King Abdul Aziz International Airport South Terminal ,this project is subcontracted to us by **AL-Gihaz Holdings** and **TAV Contracting** .The scope of work we are working on is the interior finishings of all the buildings of South Terminal, which includes Stone And Aluminum claddings, floor finishings ,glass fixation, ceiling designs and fixation, HVAC installation, electric works etc. My role is to work on the shop drawings , QS of all materials referring from Revit Models and leading its execution on the site. In the hand overing of site also submitted the as-built models of total project in which the interior model linked with the architectural and structural models viewing our scope of work.
- **3D Modeling & 2d drawings:** Worked on the different projects like Exeed Showroom, Mhero Showroom, Jeddah Vibes, OKAG office interior, Autozone Showrooms etc in which created the Bim models which includes the Architecture coordinating with the structure and MEP .Provided the rendered views to enhance the designs and imagine the reality.Created shop drawings for execution of the projects from the IFC's provided by the clients or designers.

Architectural Engineer

AMG Company (Dammam, Saudi Arabia)

May 2025 – July 2025

AMG Company is an Architectural solutions firm specializing in projects including Facades Design, Ceilings Design & Interior glass And aluminum work.

- **Projects Role & Coordination** : Working as an Architectural Engineer on different projects ,in which designing the facades of high rise buildings , airport, and town houses. The designs includes the facade windows, fix glass, louvers, cladding, Coordinating with the site team according to the shop drawings which are provided for the execution. The materials which we are using in our designs are also manufacturing in our factory including the glass designs, metals ,aluminums. The projects which I am working on are Rafal Tower Riyadh, Jizan New Airport, Red Sea Town Houses.

Interior Architect

March 2024 – May 2025

Draw Line Contracting (Riyadh, Saudi Arabia)

Draw Line is an engineering firm specializing in projects including Indoor Stations, Amenities, Stadiums, Ports etc.

- **Architectural Design & BIM Execution:** Designed and worked on projects including stadiums up gradation & hospitals ,hotels interiors etc. Currently working on project in Dirriyah name Royal Dirriyah golf course club, which includes the design of course and it's activities

BIM Architect, Senior Project Architect

January 2022 – February 2024

Saif and Associates (Karachi, Pakistan)

Saif and Associates is an engineering firm specializing in residential and commercial architecture.

- **Architectural Design & BIM Execution:** Designed and developed over 10+ commercial buildings and 30+ residential projects, utilizing Revit for BIM modeling and AutoCAD, Sketch Up, and 3DS Max for 3D visualizations and technical drawings.
- **Project Coordination & Compliance:** Collaborated with MEP and structural engineers to ensure seamless integration of building systems, resolving design conflicts while adhering to regulatory and zoning requirements.
- **Site Supervision & Execution:** Managed the execution of architectural projects, including villas (125–2,000 Sq. Yds.), high-rise commercial buildings, apartments, retail stores, hospitals, parks, and mosques, ensuring compliance with approved designs and quality standards.
- **Budgeting & Team Leadership:** Oversaw project budgeting and cost control to maintain financial efficiency, while mentoring and training five junior architects in design processes, site coordination, and technical drawing preparation.

Architectural Designer & Site Supervisor

November 2020 – December 2021

Lakhani Builders (Karachi, Pakistan)

Lakhani Builders is a construction company specializing in commercial and residential projects, particularly in Karachi.

- **Architectural Design & Planning:** Designed and developed commercial projects, ensuring alignment with shop drawings and site requirements for construction and renovations.
- **Interior & Kitchen Design:** Created functional and aesthetically appealing apartment interiors and kitchens, tailoring designs to client preferences and optimizing space utilization.
- **Site Supervision & Execution:** Monitored on-site construction and renovation work, ensuring adherence to design specifications, quality standards, and project timelines.
- **Stakeholder Coordination:** Collaborated with contractors, suppliers, and project teams to ensure smooth execution, resolve design challenges, and maintain project efficiency.

Junior Architect

January 2020 – October 2020

BIM Studio (Karachi, Pakistan)

BIM Studio is an engineering firm specializing in office buildings and interior design.

- **2D Drafting & Technical Drawings:** Developed precise floor plans, elevations, and sections using AutoCAD, ensuring compliance with design and construction standards.
- **3D Modeling & Visualization:** Created high-quality 3D models and photorealistic renderings using Sketch Up, Revit, V-Ray, and Lumion for client presentations and marketing materials.
- **Material & Code Research:** Conducted in-depth research on building materials, specifications, and local building codes to assist lead architects in project planning.
- **Design Support & Collaboration:** Assisted senior architects in conceptual design development, model revisions, and project documentation to enhance project efficiency.

Entry-Level Architectural Designer / Intern

July 2017 – December 2019

Dimensions (Karachi, Pakistan)

Dimensions is an architectural design firm specializing in space planning and project coordination.

- **Space Planning & Elevation Design:** Assisted in developing efficient spatial layouts and elevation designs, ensuring functionality and aesthetics in architectural projects.
- **Coordination with Engineers & Contractors:** Collaborated with Structural and MEP Engineers to integrate building systems seamlessly and resolve design conflicts during on-site execution.
- **Project Documentation & Reporting:** Supported five Project Managers by preparing reports, cost estimates, and project timelines to ensure smooth workflow and adherence to deadlines.
- **Technical Drawings & Site Support:** Assisted in refining floor layouts and construction drawings, gaining hands-on experience in site coordination and design implementation.

Professional Registration

- **Pakistan Council of Architects & Town Planners (PCATP)**
Registration # : A-08556

Certifications

- Autodesk Revit Certified Professional
- Autodesk Certified User (ACU) – AutoCAD
