PROFESSIONAL SUMMARY

Strategic Interior Designer with 6+ years of experience delivering high-end commercial and hospitality projects. Expertise in space optimization, technical fit-out coordination, and site execution. Proven track record in improving spatial efficiency by 25% and reducing project delivery timelines by 15% through precision AutoCAD/3Ds Max modeling and strict adherence to international engineering codes.

WORK EXPERIENCE

Senior Interior Designer

May 2024 – Present

Abdullah Bin Mohammed Al-Musharraf & Sons Co. Ltd. (STOSA Cucina)

- Spearheading design delivery for 22+ luxury interior projects, ensuring 100% alignment with Italian premium brand specifications.
- Transformed complex client briefs into technical 3D visualizations, achieving a 98% first-round stakeholder approval rate.
- Optimized design-to-installation workflows, reducing average project lead times by 20 days through integrated site management strategies.
- Directing end-to-end project lifecycles from initial conceptualization to final site handover for high-value commercial accounts.

Project Interior Designer

2022 – 2023

INEX CO.

- Engineered detailed technical shop drawings for 3 high-rise towers, resolving 55+ critical site-specific engineering discrepancies.
- Orchestrated Tender package preparation for projects valued at SAR 13M+, ensuring 100% technical accuracy and zero bidding errors.
- Collaborated with MEP and Structural teams to maintain 100% design integrity across large-scale construction phases.
- Supervised on-site execution for 5 concurrent projects, achieving zero safety incidents and maintaining 100% quality compliance.

Interior & Exterior Designer

2020 – 2021

Al Etqan Engineering Office

- Designed 12+ high-traffic commercial lounges and restaurants, increasing functional floor-plan efficiency by 22%.
- Managed contractor deliverables and site schedules for 10+ projects, ensuring 100% on-time completion within fixed budget limits.
- Developed comprehensive FF&E strategies that reduced material procurement waste by 15% through precise quantity surveying.

TECHNICAL & CORE SKILLS

Software Proficiency: AutoCAD, 3Ds Max, SketchUp, Lumion, Adobe Photoshop, Revit, MS Office.

Core Expertise: Space Planning, Fit-out Management, Site Supervision, Technical Shop Drawings, FF&E, PMP.

EDUCATION & CERTIFICATIONS

Bachelor of Interior Design | Albaha University

2019

- Project Management Professional (PMP) - Certified Introduction & Application
- Advanced Engineering Risk Management Certification - 2021
- Certified Interior Design Professional - Saudi Council of Engineers (SCE ID: 888127)
