Jumbo Bldg. Flat 107, Hamdan Street, Abu Dhabi, United Arab Emirates

PROFILE SUMMARY

Licensed Civil Engineer with experience in construction management, site supervision, and project coordination. Experienced in monitoring construction activities, ensuring quality compliance, and managing project schedules from planning to completion. Strong communication and problem-solving skills with the ability to work in multicultural environments.

CORE COMPETENCES

Construction techniques
Structural inspection
Site supervision

Quantity Surveying
Safety compliance
Project management

Goal-oriented mindset
Computer aided design
Quality controls/Quality assurance

SOFTWARE PROFICIENCY

Staad Pro
Staad Pro V8i
Basic RCDC
Foundation Design

AutoCad
Sketch up
Enscape

Planswift
Microsoft Excel
Microsoft Word
Powerpoint Presentation

PROFESSIONAL EXPERIENCE

A S ENRIQUEZ ENGINEERING CONSULTANCY

June 2024 - August 2026

Project Engineer/Structural inspector

- Completed the project as a **Project Engineer** -Team leader for Land development (Roads, Drainage system, Wet & Dry Utilities etc.) of Cerca Estate at las Piñas City, Manila worth 250,000,000.00 Pesos.
 - i. Road construction
 - ii. Drainage system
 - iii. Wet utilities
 - iv. Dry utilities
 - v. Waterline System
- Witness testings on-site and laboratory inspections complying to standards and specifications.
- Provided shopdrawings for request for information due to lack of details on plan
- Project site inspections, ensuring compliance with approved drawings and specifications.
- Collaborated with contractors to achieve the timely schedule
- Prepared daily reports on project progress, contributing to clear communication among project directors.
- Report directly to Project manager and Project directors
- Conducted material inventory checks and inspection, ensuring timely availability for ongoing construction projects.
- Coordinate with different contractors for reviewing and checking submitted cost proposal/ BoQ
- Collaborated with project teams to identify and resolve engineering issues during construction phases.

4RV Dalusong Construction and Trading

- Monitored construction site activities for compliance with project specifications.
- Documented weekly progress to track project milestones and ensure accountability.
- Inspected structural integrity of building plans to verify compliance with project specifications.
- Monitored weather charts to identify potential project delays and communicate risks to the team.
- Assisted in site inspections to ensure compliance with safety regulations and project standards.
- Conducted material inventory checks, maintaining accurate records to support project timelines.
- Prepared daily reports on construction progress, facilitating effective communication among team members.
- Supported project managers in coordinating tasks, improving workflow efficiency across multiple teams.

EDUCATION

Central Luzon State University

Bachelor of Science in Civil Engineering with Specialization in Structural Engineering
Science City of Muñoz, Nueva Ecija, Philippines

CERTIFICATIONS

Structural Analysis and Design of Steel Frames using Bentley STAAD.Pro in Accordance with the NSCP 2015 Training 2024 learning the step by step Process of the Bentley STAAD.Pro understand how the STAAD Bentley .Pro works Based on given loads and parameters given by the National Structural Code of the Philippines 2015

Skills Gained:

- Steel Structure analysis design
- RCDC for Concrete design
- Foundation analysis
- Analyze structure and prepare for Earthquake design

Construction and Project Management Training 2024

Construction Project management Understanding the Construction Process and Method Plan the alternative way for the construction to finish on time

Skills Gained

- Project planning and scheduling of project
 - timely duration for activities on-site
 - Cost estimation
 - Budget control
 - time management
 - Construction management
-
