

A H M A D Z A N J E R

Architect & Designer

An international architect and a designer brimming with creativity and a fervent drive for design excellence. Proficient in design principles, technical skills, and architectural software. Adept at translating concepts into compelling visual representations. Detail-oriented, with a strong focus on sustainability. Collaborative team player with excellent communication and sales skills. Seeking to apply my perspective and contribute to impactful architectural and interior projects. From technoparks to offices, residences to resorts, I have a passion to create user experience that last through my works.
